

Toyota Manual Rear-Entry

The newly updated Toyota Manual Rear-Entry features a 32" wide manual ramp, which accommodates the largest of wheelchairs, and also includes an all new refined interior. A rear-entry vehicle's low-angle ramp makes it easy to access the interior through the rear hatch. The unique design of this mobility upgrade makes it possible to use standard parking spaces when accessible parking is unavailable.

A variety of seating options can be installed to best meet your needs, based on the number of passengers you need to accommodate.

Visit your local BraunAbility dealer today and experience a new level of convenience with the Toyota Manual Rear-Entry.
