

Summer Internship – Quality Assurance

This position is located in Winamac, Indiana

We are currently seeking students who have completed at least their second year of training in Mechanical Engineering, Manufacturing Technology or a Quality Engineering related program.

The scope of this internship includes:

Develop, implement, maintain; SPC, Capability Analysis, and formalization of MSA studies. Formalizing layout, PPAP, and Inspection to include analysis of PMEA special characteristics including supplier data analysis.

This will assist us in meeting requirements for IATF: 16949, ISO: 9001, and suppliers

The ideal candidate will be in at least their second year of schooling and in pursuit of his/her degree, and have relevant coursework and/or experience. In addition, the candidate will have the ability to prioritize multiple projects, be enthusiastic, cooperative and have positive behavior. Candidates must possess strong initiative and be results oriented. Excellent written and verbal communication skills are essential.

BraunAbility internships are paid assignments lasting 12 weeks.

Interns at BraunAbility are considered an integral part of the staff and work side by side with full time professionals to gain experience in the field. Those demonstrating a high level of performance will be considered for future employment as entry-level positions become available.

BraunAbility is an equal opportunity employer.
